

FIG. 1

Sensory Profile of the  
Sweetened Products of Comparative Example 1

(Significant differences shown by superscript notes at attributes:

\* significantly different at 90% confidence level,

\*\* significantly different at 95% confidence level,

\*\*\* significantly different at 99% confidence level)

FIG. 2

Sensory Profile of the  
Sweetened Products of Comparative Example 2

(Significant differences shown by superscript notes at attributes:

\* significantly different at 90% confidence level,

\*\* significantly different at 95% confidence level,

\*\*\* significantly different at 99% confidence level)

# FIG. 3

Sensory Profile of the  
Sweetened Products of Example 1  
in Comparison to HFCS 55

## FIG. 4

Sensory Profile of the  
Sweetened Products of Example 2  
in Comparison to HFCS 55

FIG. 5

Sensory Profile of the  
Sweetened Products of Example 3  
in Comparison to HFCS 55

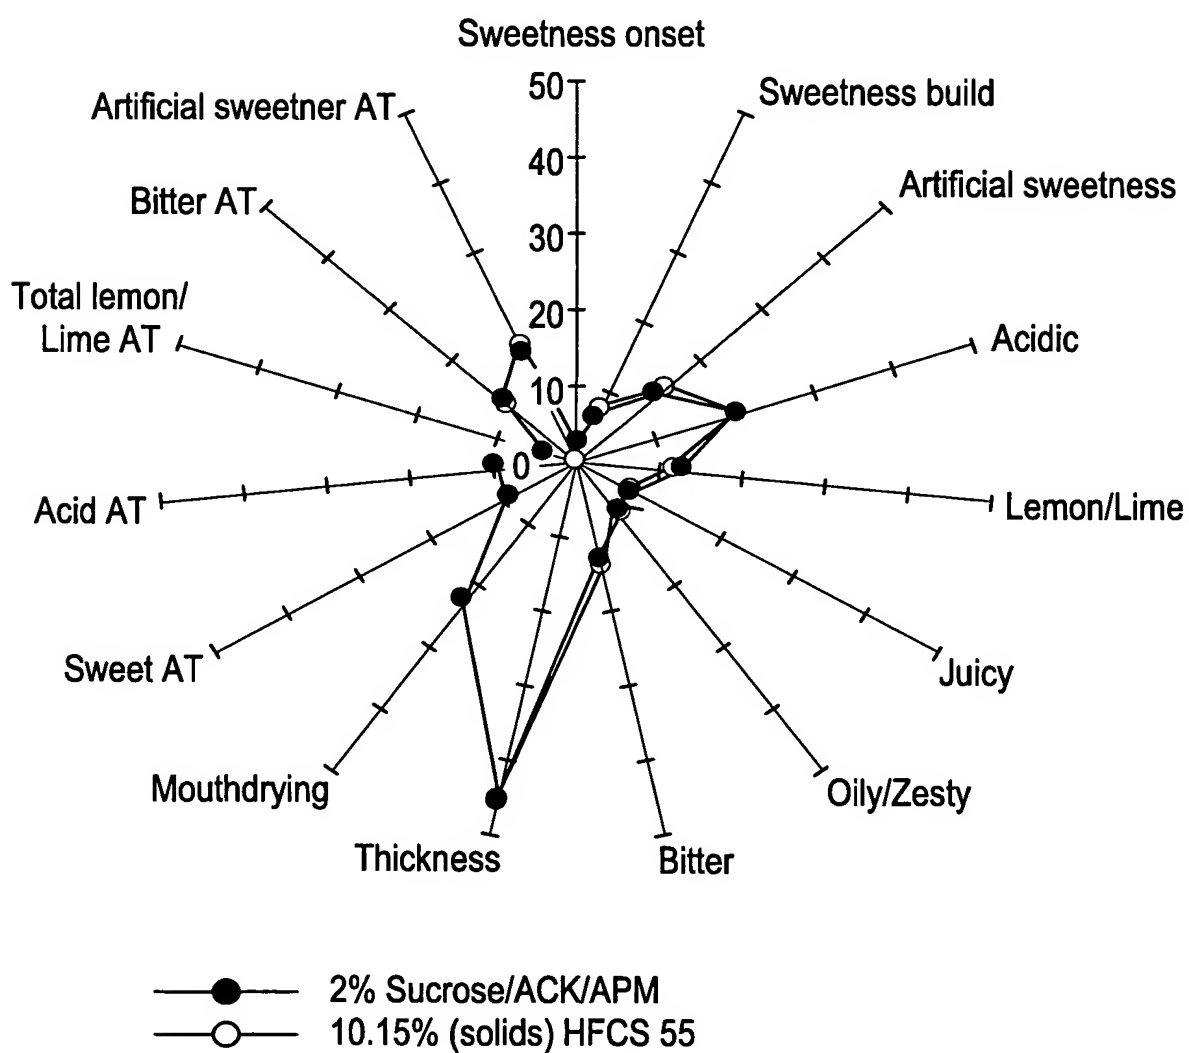

FIG. 6

Sensory Profile of the  
Sweetened Products of Example 4  
in Comparison to HCFS 55

(Significant differences shown by superscript notes at attributes:  
 \* significantly different at 90% confidence level,  
 \*\* significantly different at 95% confidence level,  
 \*\*\* significantly different at 99% confidence level)

**FIG. 7**

Sensory Profile of the Sweetened Products  
of Comparative Example 3

(Significant differences shown by superscript notes at attributes:  
 \* significantly different at 90% confidence level,  
 \*\* significantly different at 95% confidence level,  
 \*\*\* significantly different at 99% confidence level)
